Medical Malpractice, Professional Indemnity & General Liability Proposal Form for Veterinarians and Veterinary Practices

1. This proposal form has been compiled to provide the insurer with as much detail as possible with regard to evaluation of the Insurance requirements. Completion of this form does not bind the proposer or insurer to complete the insurance transaction.
2. To assist the insurer to accurately assess the liability for rating purposes, the proposer is requested to answer all the questions as provided for in the proposal.
3. Please answer ALL questions fully, replies such as “see your records”, or “as previously advised” are not acceptable. If the space provided is insufficient, a separate sheet should be attached.
4. Please be specific and truthful in completing this Proposal Form. Omitting information or failure to disclose detailed information may lead to claim repudiation based on non-disclosure or submission of misleading or false information.

Please provide details of other wildlife vets you have worked with previously.

Have you done any Post Graduate courses in wildlife. *Please provide details.*

What kind of wildlife work will you be doing

With regards to darting, how do you verify what the correct type and quantities of the drugs you will be administering are correct

14. Gross Fee Income

(This question must be completed accurately as these figures form part of the overall risk assessment)

The definition of professional and merchandising income are as follows:

Professional income is derived from rendering a service where the professional knowledge, training and skill of the veterinarian is required and where such service can be rendered in isolation from dispensing any veterinary or related product and a fee is legitimately charged for such service and where physical interaction with a client or patient is a pre-requisite for the veterinary professional to derive income (i.e. giving advice on which food to feed a new puppy will be considered a service if it forms part of a physical consultation and if the animal is physically examined). However, if an owner of an animal requests information at the time of purchasing any veterinary or related product and advice is given but not charged for or no physical interaction takes place between either veterinary professional and client or veterinary professional and animal, it would not be considered to be generating professional income.

Merchandising income is derived from selling any veterinary or related product or drug, or consumable or animal food or related product, or on-selling of a related veterinary service where the primary fee is generated from the physical entity and not the service which may be associated with such entity.

If your practice is a VAT vendor then the figures declared should be **VAT exclusive**.

a) Please give Gross Fees received during the past two years, split between Professional and Merchandising Income:

Year	Gross Fees	Professional Income	Merchandising Income
20	R	R	R
20	R	R	R

b) Please give the estimated fees for the coming 12 months. R

Year	Gross Fees	Professional Income	Merchandising Income
20	R	R	R

DECLARATION

I/We further confirm that the facility or facilities named in Part 1 is/are registered with the South Africa Veterinary Council (SAVC) and comply with the minimum standards as required by the SAVC and that at the present time I/we agree that this proposal and declaration shall be the basis of the contract between me/us and the Insurers.
